Meal Charge Policy

Students who are required to pay for meals are expected to provide payment in a timely manner. The Board recognizes, however, that students occasionally may forget or lose their meal money. In the event that a student in elementary or middle school is unable to pay for a meal on a particular day, the student may charge a reimbursable meal. A student carrying a negative balance of \$10.00 in a meal account will not be permitted to accrue additional charges until the negative balance drops below \$10.00. Instead, the student will be served a designated alternate meal provided at no cost to the student. Appropriate modifications to the alternative meal will be made when required by the student's documented special dietary needs. To safeguard the dignity and confidentiality of students in the serving line, reasonable efforts must be used whenever possible to avoid calling attention to a student's inability to pay. Middle school students will receive a voucher that must be paid the following day once the above \$10.00 limit has been reached. High school students and adults are not eligible to charge meals. *Ala carte* or additional items including extra milk may not be charged.

The child nutrition director and principal shall work jointly to prevent meal charges from accumulating and shall make every effort to collect all funds due to the child nutrition program on a regular basis and before the end of the school term. Notices of low or negative balances in a child's meal account will be sent to parents and the principal at regular intervals during the school year. If a parent regularly fails to provide meal money and does not qualify for free meal benefits, the child nutrition director shall inform the principal, who shall determine the next course of action in accordance with law. Parents are expected to pay all meal charges in full by the last day of each school year. Negative balances on student accounts will be carried forward to the following school year. However, the Superintendent shall ensure that federal child nutrition funds are not used to offset the cost of unpaid meals and that the CNP is reimbursed for bad debt resulting from uncollected student meal charges prior to September 30 each year.

This policy and any applicable procedures regarding meal charges must be communicated to school administrators, school food service professional, parents and students. Parents will receive a written copy of the meal charges policy and any applicable procedures at the start of each school year and at any time their child transfers into a new school during the school year.
