**PURPOSE:** To provide the Board of Education a report on the 2012-2013 disaggregated student achievement data report.

**BACKGROUND:** Annually, the district receives data from the Department of Public Instruction on how the district's students performed on the EOG/EOCs of North Carolina. Once all of the data is received, the Director of Testing and Accountability analyzes the information and provides disaggregated data reports for each school and the district. This analysis provides the schools the information they need to precisely focus enrichment and intervention efforts for the coming school year. This one year analysis of 3 – 8 reading and math and Math I, Biology, and English II demonstrates the gaps that are indicated for the first year of this new testing cycle.

This agenda item was tabled at the March 10, 2014 board meeting and is being brought back for presentation.

**FINANCIAL IMPACT:** None.

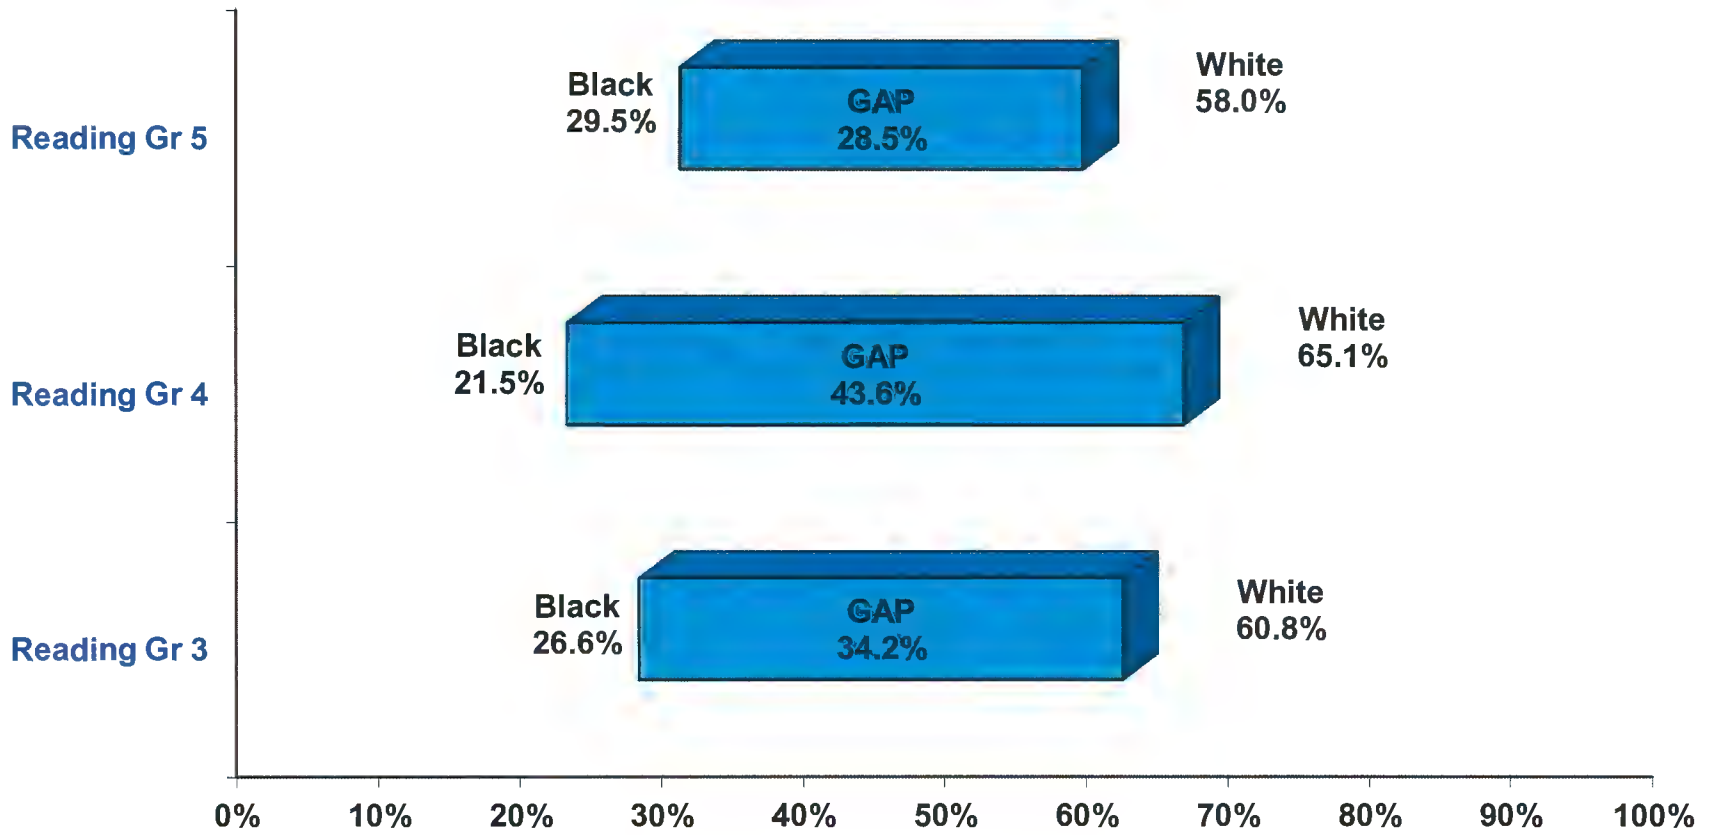

**RECOMMENDATION:** The Superintendent recommends that the Board of Education receive for information the 2012-2013 disaggregated student achievement data report.
