

**Sunday Message: 06/20/2021**

Good Afternoon Summer Scholar Families,

I want to thank each of you for your patience as we worked our first week with the Summer

Scholars program at Grady Brown Elementary. The schedule for this summer program involves Literacy/Math academics in the morning until lunch and then after lunch students are provided with two enrichment sessions. On Thursday we revamped our enrichment schedules to allow students to remain with their homeroom teacher for the first enrichment and then switch to their second enrichment. This week we are working on creating communication lines between families and teachers. During the summer scholars program, students are also provided with free breakfast, lunch, and snacks. We encourage you to send students with a water bottle and their device. Below are some highlights from the week as students created lego robotics controlled by technology, engineered closed lighting circuits, danced to a beat, and explored the outdoor stimulation of camping.
